Sponsorship Package
Spring 2018

Introduction

The UVic Web Development and Design Club is organizing **HackUVic** this March at the University of Victoria and we would like you to be involved! We're looking for sponsorship for the 3rd iteration of our annual hackathon on **March 10th and 11th 2018** in UVic's Engineering and Computer Science building (ECS).

What's Changed?

This year, we are planning to accommodate more people, give out more and bigger prizes, provide more options for food and snacks, and have more fun! We have also changed the sponsorship tier categorization.

Why?

Hackathons at universities across Canada and the US give students the opportunity to meet friends, expand their skills and connect with industry. HackUVic's goal is to provide students from UVic and the lower mainland experience in at Vancouver Island's only official Major League Hacking (MLH) event.

Sponsorship

Tier Summary

Sponsor Table*		Limited	✔	✔
Branded Meal*			✔	✔
Logo on T-Shirt			✔	Top
Provide Swag	✔	✔	✔	✔
Provide a Prize	✔	✔	✔	✔
Send Recruiters or Mentors	✔	✔	✔	✔

* Limited spots available, first come first serve

Details

Prizes & Swag

We need prizes for our contestants! If your company donates a prize it will be branded as your prize and you'll be given the option to present it during the awards ceremony.
We'd also love to give away your stickers, lanyards, merch, and clothing to our hackers.

Food and Branded Meal

We're providing meals and snacks throughout the hackathon for free to all members. If you are a Gold sponsor or higher we'll make sure our hackers know who's paying to feed them by putting your company's name and/or banner at the food table(s).

Recruiters, Mentors, and Judges

We find that having a representative(s) from your company very helpful to our attendees. However, this is optional. Mentors assist attendees with code and provide their experience in the tech community/industry. Judges are a part of selecting the winners in each award category.

If you want more information, you can contact a UVic Web Design and Development Club's representative, Erik Reppel, by either phone or email using the contact info below.

Thank you so much for your support!
